

Artist in Residence

Maggie White has been working with students at The Castle School since January. She already runs drawing and painting workshops for adults at evening classes in the school and has produced artwork for several public spaces in the area, including the mosaic recently installed in Bradley Stoke swimming pool.

Maggie works in the 6th form art rooms on Tuesdays. This provides students with a wonderful opportunity to witness a professional artist on the job! As well as running ceramic workshops for students, Maggie is producing large scale figures which will eventually be installed for public viewing by the new Octagon Art Gallery .
