For the attention of All Headteachers

The purpose of this email is

Due to requests from a number of schools I am circulating the latest details of the Promethean Interactive whiteboard offer.

Please see the attached flyer for details.

The final date this term for receipt of order forms will be **Wednesday 17th December**. A mobile solution is available as a wireless option, although we would recommend a fully fitted solution wherever possible. There is also the option to purchase a 60" (diagonal size) board if this is more appropriate.

If any school already has a Promethean mobile board this can be converted to the wireless version at a cost of £250.

I will be submitting the order to Promethean before the end of term with the intention that installations will proceed from January 2004.

Please let me know if any schools wish me to put them in contact with alternative suppliers of Interactive whiteboards.
